**Announcement of acquisition of Mast Kunststoffe GmbH & Co. KG and
 Mast Verwaltungsgesellschaft mbH by a European subsidiary**

MINEBEA MITSUMI Inc. (“the Company”) hereby announces that Precision Motors Deutsche Minebea GmbH, a European subsidiary of the Company, has reached an agreement to acquire Mast Kunststoffe GmbH & Co. KG (“Mast KG”), a precision mold parts manufacturer, and Mast Verwaltungsgesellschaft mbH, a management-service trust company (“Mast mbH”).

1. Purpose of this transaction and future operation policy

Mast KG designs and analyses precision mold parts (gears, gearboxes, etc.), designs and manufactures molds, and manufactures and sells parts.

Our group's strength lies in the vertically integrated production, from mold manufacturing to the processing and assembly of parts. In Asia, in particular, we have realized the operation of mass production at large-scale plants. In April this year, we further expanded our business in the European Region as a result of the business integration with U-Shin Ltd.

Through this acquisition, we will strengthen our vertically integrated production system for precision mold components in the European Region, from mold designing to machining and mass production of precision mold parts, thereby realizing speedy local responses and productivity improvement. By combining Mast KG and our molds and molding technologies, the Company will realize synergies for the whole group not only in Europe but also other regions including Asia, our mass production base, to further improve quality and productivity.

2. Outline of Mast KG and Mast mbH

Outline of Mast KG

(1)	Company Name	Mast Kunststoffe GmbH & Co.KG
(2)	Head office location	Holzstrasse 5, 88339 Bad Waldsee, Germany
